

Exercises to the lecture

Machine learning and Pervasive Computing

Summer term 2015

Stephan Sigg (stephan.sigg@cs.uni-goettingen.de)

Exercise: 01.06.2015, 16:15 – 17:45

Assignment 03: Artificial Neural Networks

Show/derive how for artificial neural networks the derivative of the error function is computed via backpropagation.
